

Tourism and Spatial Transformations Implications for Policy and Planning

While there is a considerable amount of recent literature on recreation and tourism as activities, there is little that provides a comprehensive review and analysis of intervention or planning in this sector. Tourism and recreation include a wide variety of activities occurring within a wide range of environments and spatial scales. The purpose of this book is to examine this transformation of space and draw out the implications for tourism policy and planning. The editors present a general model of transformation as a guide to intervention and this is followed by 18 chapters divided into four parts. The first focuses on the producers and includes case studies from the Spanish coast, French mountains and Northern Thailand. The second considers the management of the tourism product, with examples from the Amsterdam Waterfront Development and holiday villages in Northern Europe. The third section is concerned with consumers as managers of the transformation process, drawing on information from nature-based tourism, sports tourism and festival events. The final part provides a more holistic model of the planning of recreation and tourism.

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyport's Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
