

Lean Machines: Learning From the Leaders of the Next Industrial Revolution

Lean Machines: Learning From The Leaders Of The Next Industrial Revolution provides readers with a unique compilation of interviews with some of the countrys most respected executives who have deep intellectual and emotional experience in implementing lean. CEOs, vice presidents, consultants, Wall Street analysts and accountants provide readers with their perspectives on how to implement a lean business system. They are the architects of such successful implementations as Pratt & Whitneys Achieving Competitive Excellence program, the Danaher Business System, the Alcoa Production System and Freudenberg NOKs hugely successful six-step lean process. Each of the 15 offers advice on how to overcome the barriers from the shop floor, to mid-level management, to the board room. They provide their personal experiences, insights and recommendations on the most important aspects of embedding lean systems within a corporate culture. All have successfully implemented a fundamentally different and often counter-intuitive system of running their business based on the lean principles of build to order, continuous improvement and the elimination of waste. The interviews were conducted by Manufacturing News Editor & Publisher Richard McCormack and include the following individuals:

- o George Koenigsaecker, Former CEO, HON Industries and Principal, Simpler Consulting;
- o Michael Joyce, Corporate Vice President of Operating Excellence at Lockheed Martin;
- o Robert Weiner, Senior Vice President of Global Manufacturing, Exide Technologies;
- o Mark DeLuzio, Architect, Danaher Business System & President of Lean Horizons;
- o James Womack, President, Lean Enterprise Institute and author of Lean Thinking and The Machine That Changed The World;
- o Dave Logozzo,

Director of Manufacturing Operations, Delphi Corp.; o Cliff Ransom, Director of Research, Janney Montgomery Scott LLC; o Ken Kreif, Vice President of Quality at Toyota, Georgetown, Ky.; o Keith Turnbull, Executive Vice President, Alcoa Business System; o Allen Haggerty, General Manager of Engineering, Boeing; o Brian Maskell, President, BMA Inc., Lean Accounting; o Art Byrne, President and CEO of Wiremold Co.; o Major Gen. Dennis Haines, Warner Robins AFB; o Joseph Day, CEO, Freudenberg-NOK; and o Dan Yurovich, CEO, Barry Controls o Lt. Col. Fred Hart, Commander, U.S. Army Red River Depot

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyport's Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
