

Emergency Repairs for Historic Buildings

Emergency Repairs for Historic Buildings is a compilation of 12 case studies that emphasize the necessity of emergency repairs for historic buildings in poor condition. These buildings are defined in this book as listed buildings in England, together with those which, although unlisted, add an historical dimension to their environment. Emergency repairs could consist of permanent or temporary work. Permanent work should always be carried out according to the best historic buildings practice. Temporary work is second best made necessary by lack of money but having the advantage of speed. In an emergency, this is sometimes the most important factor as decay spreads very quickly, especially in empty buildings. Chapter 2 of this book provides guidelines for temporary repair, which indicate that even this work should be the best quality of its kind. This book mainly relates to the great majority of buildings, rather than to major country houses, historic engineering works, or ancient monuments. This text is a useful and informative reference for individuals or students who conduct research on studies relating to architectural or historical arts.

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyportâ€™s Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
