

Gordon Parks: Collected Works

This five-volume collection surveys five decades of Gordon Parks photography. It is the most extensive publication to document his legendary career. Widely recognized as the most important and influential African-American photographer of the twentieth century, Parks combined a unique documentary and artistic style with a profound commitment to social justice. Working first for the Farm Security Administration and later for Life magazine, he specialized in extended narrative picture stories on difficult subject matter. Covering crime, poverty, segregation, the politics of race and class and controversial personalities, Parks became legendary for his ability to meld penetrating insight with a lyrical aesthetic. He was thus able to introduce a broad and diverse public to people, issues and ideas they might otherwise have ignored. Parks was remarkably versatile, travelling the world to photograph news events and fashion, as well as the worlds of art, literature, music, theatre and film. Later in life, he reconceived his vision in fundamentally personal and poetic terms, producing color photographs that were allusive rather than descriptive, symbolic rather than literal.

Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
