

Farm Dont Hunt: The Definitive Guide to Customer Success

Across entire verticals of the economy the new normal is the recurring revenue business. Charging customers on a monthly basis, firms with this model have to play by an entirely new set of rules, rules which generally favor the customer over the seller. But this new model also opens up fantastic opportunities to provide and extract more value from the relationship as well. To create that value business needs to move away from a hunting mindset to a farming mindset. That change is the new paradigm of Customer Success. Many business leaders have heard of Customer Success but few understand what it really means to run their business from the Customer Success standpoint. Even fewer have the experience to build the Customer Success function and optimize its performance. As a pioneer in the field of Customer Success, Guy Nirpaz is acknowledged as one of the earliest proponents of this business realignment. In Farm Dont Hunt Guy breaks down the intellectual underpinnings of Customer Success as a theory and quickly moves to providing pragmatic, actionable advice for orienting your business around this new model.

Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
