

Foundations in Public Economics (Cambridge Economic Handbooks)

In this book, Professor David Starrett organizes within a single framework the major theoretical foundations of modern public sector economics. He presents a unified treatment of market failure that encompasses externalities, pure public goods, local public goods and natural monopolies. Professor Starrett then develops and assesses the efficacy of the various planning procedures - including representative voting, benefit cost analysis, incentive compatible design mechanisms and the free market. He devotes attention to both national and local issues, with the aim of identifying those methods that are best suited to each arena separately. Special attention is paid to financial arrangements, techniques for eliciting necessary information that is not readily available, and identification of biases that will result from incorrect procedures. This study will be useful to graduate students and economists who are interested in public finance or welfare economics.

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyportâ€™s Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
