

Organizational Decision Making and Information (Contemporary Studies in Information Management, Policies & Services)

This book provides an overview of organizational decision making and the use of information in the process. In addition, it draws on original empirical work to establish general principles for design of information systems, which are tuned to the way managers actually behave and make decisions at the highest level of the organization. The book also gives insights into the ways higher education institutions operate and deal with complex problems that are messy and have broad political ramifications. It offers a solid basis for the necessary shared understanding between managers and information providers that will enable the information resources of an organization to be effectively harnessed to support decision making activities. It demonstrates the way decision making occurs in organizations and shows how information contributes to these with a high-level decision group and, on the basis of the empirical tests, proposed a new theory of complex decision making and information in organizational settings. For readers interested in theoretical aspects of complex decision making, or in research in decision making and information, the book builds on the two theories of decision making with the highest profiles in the organizational literature. It also shows new ways of testing those theories in the real world of organizations. A key feature of this volume is its contribution to the development of a theory of high-level decision making in organizations that takes into account the function of information in the process. This is accomplished through an account of a research project that formulated two broadly based theories of decision making and information use, tested

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyport's Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to

come. Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
