Review on Parthenium Weed Biological Control Agents

Review on Role of Stem-boring Weevil and Leaf-feeding Beetles, in Biological Control of Parthenium hysterophorus L.

The importance of biological control particular attention is given to Stem-boring Weevil, *Listronotus setosipennis* H. and Leaf-feeding Beetles, *Zygogramma bicolorata* P. in control of *Parthenium hysterophorus* L. in tropical and sub-tropical regions. It needs to implement integrated management where various control methods should be alternated. Among of these biological control seems to be the most effective control methods in parthenium weed. In this review other control strategies are also discussed.

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyportâ€™s Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
