

Capitalism in Evolution: Global Contentions--East and West

For much of the 20th century, rivalry existed between centrally planned and capitalist solutions to the problems of economic stability and growth. This changed in the 1990s. In that same decade, the period of rapid growth of the Japanese economy came to an end and by the close of the century, the American model of capitalism was seen as the only possible option. Modern capitalism has achieved spectacular rates of innovation and growth but the system is still menaced by financial crises and economic recessions. Furthermore, there is an unacknowledged diversity of capitalist systems. Contributors to this volume argue that to understand capitalism in evolution, this diversity of systems and approaches must be taken into account and their individual evolutions analyzed. This book represents a major understanding of the evolution of capitalism in the 21st century and brings together a distinguished group of experts with perspectives from America, Europe and Japan.

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyport's Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
