

# Futurevision: Scenarios for the World in 2040

Drawing on four possible futures, this book critically examines the risks and opportunities to come, discussing the key factors, trends, critical uncertainties, and wildcards that will shape the future. Will relentless consumerism destroy the planet? Will the competition for limited resources create havoc? Will science and technology offer a solution? A guide to a greater awareness of long-term problems and possible solutions, this book encourages readers not only to adapt to what might happen, but also to shape the future and generate change.

Located on a 160 x 25 site near the south entrance of Newburyport's Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience ( sight, smell, touch, taste, smell) with the garden and the community.
