

# Inequality, Democracy, and Growth in Brazil: A Country at the Crossroads of Economic Development

In terms accessible to non-economists, Marcos Jose Mendes describes the ways democracy and inequality produce low growth in the short and medium terms. In the longer term, he argues that Brazil has two paths in front of it. One is to create the conditions necessary to boost economic performance and drive the country toward a high level of development. The other is to fail in untying the political knot that blocks growth, leaving it a middle-income country. The source of his contrasting futures for Brazil is inequality, which he demonstrates is a relevant variable in any discussion of economic growth. Inequality illuminates causes of seemingly-unconnected problems. This book, which includes freely-accessible documents and datasets, is the first in-depth analysis of an issue that promises to become increasingly prominent. Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience ( sight, smell, touch, taste, smell) with the garden and the community.
