

Food: Key Stage 2 (English Through Topics)

This Pupils Book is part of a package designed for the teaching of English at Key Stage 2. Taking as topics the weather, food, minibeasts and transport, Key Stage 2 includes three Pupils Books per topic (National Curriculum Levels Three, Four and Five), one Teachers Book per topic and one set of Copymasters per topic. Part of a series intended to help children put English into context, these courses aim to provide flexible, topic-linked literature and language work. Topics have been chosen for their strong links with other National Curriculum subjects, particularly science, and each book is closely linked to National Curriculum levels, helping teachers monitor childrens progress through the various Levels of Attainment. Each topic covers the required National Curriculum Attainment Targets for English at each level. Activities in Attainment Targets One to Three, Speaking and Listening, Reading and Writing, as well as work on knowledge about language, are dealt with thoroughly. Links are made to Attainment Targets 4-5 Spelling and Handwriting where possible. Each Pupils Book contains a variety of fiction, non-fiction and real life texts, including poetry, plays, fables and folk tales from many cultures. Intended to stimulate writing and discussion, material is incorporated which should develop the complete range of literacy skills at each level. This Pupils Book is devoted to the topic of food.

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyportâ€™s Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form

a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
