

Labour Market Policy and Unemployment: Impact and Process Evaluations in Selected European Countries (Labour Markets and Employment Policy)

This text examines the effectiveness of active labour market policies and their contribution to the prevention of social exclusion. The evaluation studies reported in this volume focus on two aspects of active labour market policies that have been neglected in previous research. The first part of the book deals with aggregate impact analysis, before moving on to implementation issues. The book includes studies carried out in Germany, The Netherlands and Sweden.

Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
