

The Most Amazing Places to Walk in Britain

Flick through the photos and maps in this beautiful and useful book, and you're left in no doubt about the potential for walking in this country. The book is divided by region into six chapters, and walks within chapters are grouped by county. Each walk has a map and detailed written instructions, including a description of conditions and possibilities for refreshment. There are shorter sections on points of local interest, such as the history of the Settle to Carlisle railway and the stories behind the tracks that score the chalk hills of southwest England.

Located on a 160 x 25 site near the south entrance of Newburyport's Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels: Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
