

Menus for Movieland: Newspapers and the Emergence of American Film Culture, 1913-1916

At the turn of the past century, the main function of a newspaper was to offer menus by which readers could make sense of modern life and imagine how to order their daily lives. Among those menus in the mid-1910s were several that mediated the interests of movie manufacturers, distributors, exhibitors, and the rapidly expanding audience of fans. This writing about the movies arguably played a crucial role in the emergence of American popular film culture, negotiating among national, regional, and local interests to shape fans' ephemeral experience of moviegoing, their repeated encounters with the fantasy worlds of movieland, and their attractions to certain stories and stars. Moreover, many of these weekend pages, daily columns, and film reviews were written and consumed by women, including one teenage girl who compiled a rare surviving set of scrapbooks. Based on extensive original research, *Menus for Movieland* substantially revises what moviegoing meant in the transition to what we now think of as Hollywood.

Located on a 160 x 25 site near the south entrance of Newburyport's Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
