

Retrospectives on Public Finance (Fiscal reform in the developing world)

Retrospectives on Public Finance contains original analyses by internationally recognized public finance scholars, including Carl Sumner Shoup, one of the disciplines most famous practitioners. Shoup, along with Richard Musgrave and his students, pioneered the prescriptive or political economy school of public finance known for its hands-on approach and its commitment to applying theory to real world problems. Each contributor provides a retrospective on Shoups various contributions to the field, reviewing the literature and assessing its relevance to current problems in public finance theory and policy. The essays highlight and analyze fiscal theory and public policy developments from the 1930s to the present in four areas: the Shoup tax missions to Japan, Venezuela, and Liberia; the tax mix; the expenditure mix; and macro public finance. Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
