

Security Matters: Essays on Industrial Security

Francis Hamit spent more than twenty years in the security industry as a guard captain, manager, sales executive, and consultant. For seven years (1994-2000) he wrote a monthly column on industry issues, Security Counterpoint for Security Technology & Design magazine. Much of that material, written in a style accessible to the general reader, remains relevant today. This book contains 32 essays that address such issues as domestic terrorism, the role of security professionals in our society, the interactions between business and law enforcement and little-known threats to persons and property. This book is suitable as a supplemental readings text for academic courses, a resource for security professionals, and an interesting and enjoyable book for others interested in security, law enforcement, corporate culture and loss prevention.

Located on a 160 x 25 site near the south entrance of Newburyport's Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
