

Tourism, Culture and Development: Hopes, Dreams and Realities in East Indonesia (Tourism and Cultural Change)

Can tourism help a poor remote community to develop? How much does tourism change a village? How can a village have the benefits tourism offers without the problems it can cause? These are the questions that lie at the core of this text. Using an anthropologists eye and a high degree of trust, this book uncovers the story of tourism development in two small villages on a remote island of Eastern Indonesia. The ethnography provides a rich description of life in a non-western marginal community in a contemporary global context and how they face the challenge of balancing socio-economic integration and cultural distinction. It uncovers the conflicts of tourism development between a poor community, tourists, governments and brokers. This micro study has ramifications beyond the locality. Many other villages in Indonesia are experiencing similar issues. Many of the challenges are relevant to peripheral communities across the globe. Themes in this book will resonate with studies of tourism, tourists, development, globalisation and cultural change from around the world.

Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
