Everybody who has been in Singapore, for business, leisure or living as one of the five millions inhabitants, has a crystal clear idea of Orchard Road: crowd, noise, traffic and shops, many more shops than it can be imagined. But which shopping mall is the most attractive in the area or in the overall shopping districts in Singapore? Many shops owners are asking the very same question, before making the decision where to open a new shop or how much premium pay they should pay in order to enter a more attractive shopping mall. DFRC can provide an independent answer to this question. Using LBASense, our remote monitoring system capable to passively detect shoppers mobile phone signals, we collected the hourly footfall for each shopping mall, from mid-week in peak hours. The rankings and comparisons are relative to 313@Somerset Malls data.
