

Insurance Ethics Training

Insurance Ethics Training is a study of ethical practices for insurance agents, examining closely the parties to whom agents owe an ethical responsibility, the law of agency, agent and broker liability, and deceptive trade practices and fair claims handling. This textbook will teach you about the new focus on business ethics and give you an understanding of ethical decision making, compare ethic obligations and legal requirements, and help you identify the duties resulting from the law of agency.

Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
