

Webs of Power

Webs of Power offers a fresh perspective on women in Southeast Asia. Focusing on one rural Minangkabau village, the book provides vital insights into the gendered processes of post-coloniality. The Minangkabau living in West Sumatra are the largest matrilineal group in the world. They have intrigued generations of scholars because they are matrilineal and Islamic. By exploring the contestations and accommodations women and men make with state and Islamic ideologies, Webs of Power discloses the processes at the heart of globalization as well as the complexities of kinship and power in a rural agricultural community. The book challenges conventional thinking about matriliney, showing the prominence of senior women in all aspects of village life.

Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
