

Circulation Economics: Theory and Practice (Frontiers of Business Ethics)

Circularity, pluralistic values and communicative co-operation are of special importance to reach the goal of sustainability. In this book the authors argue that a new economics must be based upon an organic world view where economy, nature and culture are interconnected. The economic challenges of tomorrow will only to a limited extent lend themselves to being managed by the neoclassical and mainstream economic paradigm. It is necessary to make changes on both structural and individual levels and to modify individual habits and values concerning consumption and lifestyle. Each chapter in the book is illustrated with practical examples written by practitioners and academics and is built upon a progressive Scandinavian experience.

Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
