

The Influence of Culture on Human Resource Management Processes and Practices (Applied Psychology Series)

It is clear that organizations are becoming more culturally diverse, and a better understanding of multiculturalism and its impact on organizations is needed. This book, with contributions from expert academics, is designed to motivate both the further development of models concerned with the influence of cultural diversity on several Human Resource Management processes and practices and the design and conduct of empirical research on the same topic. It primarily focuses on processes and practices that occur at three general phases; the pre-hire phase, the selection phase, and the post-hire phase. An improved understanding of the roles that culture plays in such processes and practices should contribute to both the efficiency and effectiveness of organizations and the performance and well-being of their members. This edited book is appropriate for undergraduate and graduate students in industrial and organizational psychology, human resource management, sociology of work, and cultural diversity within organizations. It can provide a central resource in classes on organizational psychology, strategic human resource management, and global issues in human resource management. Professionals and practitioners who increasingly interact with organizational issues at the global level will find this book essential to their work.

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyport's Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyport's Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell)

with the garden and the community. Read the rest of this entry Categories: Alchemical Garden, Articulture, Current Events, Projects.
