

Legal Dultery (Legal Adultery Book 1)

This book includes sexual practices through cultural norms worldwide. Sexual activities and practices of human sexuality is not simply imposed by instinct or stereotypical conducts, as it happens in animals, but it is influenced both by superior mental activity and by social, cultural, educational and normative characteristics of those places where the subjects grow up and their personality develops. Consequently, the analysis of sexual sphere must be based on the convergence of several lines of development such as affectivity, emotions and relations. In many historical eras, recovered art and artifacts help to portray human sexuality of the time period. The biological aspects of human sexuality deal with human reproduction and the physical means with which to carry it out. They also deal with the influence of biological factors on other aspects of sexuality, such as organic and neurological responses, heredity, hormonal issues, gender issues and sexual dysfunction. Sociocultural Aspects of human sexuality can also be understood as part of the social life of humans, governed by implied rules of behavior and the status quo. This focus narrows the view to groups within a society. The socio-cultural aspect examines influences on and from social norms, including media such as politics and the mass media. These sorts of media can help to bring about massive changes in the social norm examples include the sexual revolution and the rise of feminism. The book includes topics on religion and sexuality as well as an analysis of Joseph Smith and the Prophet of Islam in terms of polygamy.

Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical

Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
