

Research in Organizations: Foundations and Methods of Inquiry

While there are many other books on research methods, *Research in Organizations* differs from them in applying these methods to the study of organizations, supported by numerous case studies illustrating each process. A comprehensive beginners research text, the book covers the foundations and methods relevant to doing research in organizations, as well as the identification of research questions and the ethical conduct of research. *Research in Organizations* offers a holistic perspective of the subject that embraces quantitative, qualitative, and mixed-methodology research procedures. Written by two experts in the field who have authored over 300 articles and books on this subject, the book has won the endorsement of the Academy of Human Resources Development.

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyport's Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
