

# The Tank Factory: British Military Vehicle Development and the Chobham Establishment

The United Kingdom invented the tank and was responsible for campaign-winning tactics, yet by the start of the Second World War had fallen well behind other nations in the design and build of armoured vehicles. William Suttie tells the history of tank design from a government perspective and the decisions and failures that led to that state of affairs, going on to detail the formation of the Fighting Vehicles Research and Development Establishment at Chertsey. This fascinating book reveals that establishment's history, its groundbreaking research, inventions and designs and many stories of the people who worked there, and its aim to ensure that the British Army would never be under-protected or out-gunned again.

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyport's Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyport's Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience ( sight, smell, touch, taste, smell) with the garden and the community.
