

Communication in Construction Teams (Spon Research)

Construction teams are usually complex, interdisciplinary and temporary, and, as such, the need for effective communication is crucial. However, published data regarding the manner in which individuals interact within the temporary project team is scarce, with little other than anecdotal evidence available. Recognizing this gap, *Communication in Construction Teams* provides a comprehensive overview of the literature on interpersonal communication and delivers a critical review of various research methods previously used in and outside the construction management field. Making use of Bales interaction process analysis (IPA), a tool used successfully in many fields to collect interaction data, the text investigates the link between successful projects and the effectiveness of communication, finding that participants in the construction process exhibit regular patterns of interaction and, most significantly, that there are different patterns of interaction associated with successful and unsuccessful projects. Putting forward a number of practical suggestions to assist all actors involved in construction projects, this insightful publication will be of interest to researchers in the fields of building design and construction management.

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyport's Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
