

# Return on Strategy: How to Achieve it!

Why is it that many companies meticulously following recipes on management and strategy fail? Did Google, Skype, Ryanair, Huawei and a number of other successful companies buy into a well thought out strategy and adhered to that over time? How do companies deliberately opting out of the recipe game and opting into the out-of-the-box-thinking fare? In short, why is it that some companies achieve a higher Return on Strategy than others? Whereas Return on Investment (RoI) has attracted increased attention over the last couple of decades, little, if any, attention is being paid to whether companies do at all achieve Return on Strategy (RoS) and how. This book provides an overview of contemporary strategy literature and recipes brushed up with a view to identifying explanations as to how recipes has seldom worked as intended. One out of several reasons rests on the fact that recipes do not take the so-called X-factor into account. With the X-factor as the starting point the book examines a sample of 50 global companies of which some has achieved a remarkable high Return on Strategy and others failed. The 50 companies covers most continents as some are from the North America, some are from the European continent and others are from different parts of the emerging Asian region threatening companies from the Western hemisphere. The book explains the reason behind success and failures and provides practical tools as to how companies may increase their Return on Strategy. In the toolbox, you will find a framework on how to increase the Return on Strategy as well a number of dynamic positioning tools, road maps and bearing points. Invariably, more and more companies - including consultants, business leaders and MBAs - now work diligently in order to increase their Return on Strategy and the best of them are here to stay successfully are you?

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyport's Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyport's Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience ( sight, smell, touch, taste, smell) with the garden and the community.
