

Project Development in the Solar Industry

This book provides an extensive overview of utility scale solar project development and the various tasks required to bring large solar power plants from plans to realities. The various topics have been organized and presented in a way to clearly define important development fundamentals including basic business and legal considerations. The reader is also guided through the more complex aspects of renewable energy development such as how to choose the ideal project site. Further, while the book is appropriate for a cover to cover read-through it is also designed to be an excellent go-to reference, a **HANDBOOK FOR RENEWABLE ENERGY DEVELOPMENT**. Edited by: Albie Fong and Jesse Tippet with contributions from: Arturo Alvarez, Jeffery Atkin, William DuFour III, Perry Fontana, William Hugron, Jason Keller, Tyler M. Kropf, Michael Mendelsohn, Brett Prior, Scott Reynolds, Pilar Rodriguez-Ibanez, Katherine Ryzhaya Poster and Alfonso Tovar

ELECTRONIC ENHANCEMENTS The book's companion website <http://www.solarbookteam.com> provides contact information for all authors to the book and access to the key resources highlighted in the text. This tailored media platform provides supplemental and exclusive information that is up-to-date with the present state of the solar industry.

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyport's Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyport's Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 **BUILD COMMUNITY:** The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell)

with the garden and the community. Read the rest of this entry Categories: Alchemical Garden, Articulture, Current Events, Projects.
