I sing the praises of Dr. Block whose skill and compassion extended and improved the quality of my dear canine companion, Dakota. His ability to communicate with animals is uncanny. His chiropractic care helped when traditional veterinary care failed. I highly recommend that you read his book. It will change your life. - Mikette Von Issenberg Animal activist and author In Like Chiropractic for Elephants, Dr. Block, one of the true pioneers in animal and zoo chiropractic, details the intriguing physical, spiritual, and emotional connection he has discovered and developed between human and animal nature. Based on his 40 plus years of experience working with, and understanding the nervous system, Dr. Block explains in depth the relationship between 2 legged and 4 legged beings. Dr. Block reveals to us that animals know what we know and that our animal spirits have a great deal to teach us about awareness, empathy, and personal discovery. Dr. Block has the uncanny ability to tune into the root cause of animal states of disease without the use of drugs or surgery. In Like Chiropractic for Elephants, you will experience some of these miracles.

Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience ( sight, smell, touch, taste, smell) with the garden and the community.
