

Kazakhstan's Emerging Economy: Between State and Market (Emerging Markets Studies)

Kazakhstan has become a successful market reformer under the leadership of President Nursultan Nazarbayev. But what type of a market economy has emerged in the country since 1991? This book focuses on Kazakhstan's transition path, examines the role of the state in steering economic processes, and analyses the state - business interaction. The Varieties of Capitalism approach and a core - periphery analytical framework are applied to classify the evolving model of capitalist economy in the country in detail. The research design is based on a qualitative cross-sectional interview study, where 159 semi-structured interviews were conducted. This study makes an innovative contribution to the scholarly literature on the economic and institutional transition of Kazakhstan.

Located on a 160 x 25 site near the south entrance of Newburyport's Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
