

The Thinking Managers Toolbox: Effective Processes for Problem Solving and Decision Making

In this indispensable book, a widely experienced business consultant provides a complete set of analytical tools essential to successful trouble-shooting, effective planning, and making better decisions faster, more confidently, and more often. How can you help your company solve a problem in just a few days that has been plaguing managers for three months? How can you bring a room of executives to a consensus on a critical decision that the CEO and his committee have been wrestling with for years? Of course, this is easier said than done. Indeed, not a week goes by without a major business media story about a company that has fallen on hard times and an executive that has resigned for personal reasons. The root of the failure is usually ineffective decision-making processes, and ultimately, bad decisions. In *The Thinking Managers Toolbox*, veteran consultant and renowned business thinker William J. Altier cogently presents the underpinnings of successful thinking processes and their applications, drawing on practical, real-world experiences. The first section explores the fundamentals of thinking, change, and the critical role that sound thinking processes play in effective problem solving. The second section, your basic toolbox, develops five, in-depth fundamental thinking processes. And a third section, the advanced toolbox, develops more specialized applications for creative problem solving. Here then is a valuable primer for anyone, whether a middle manager or a CEO, seeking to solve problems and make better decisions more efficiently. *The Thinking Managers Toolbox* is an invaluable resource for those seeking to develop the fundamental thinking processes necessary to perform with excellence.

Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyports Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience (sight, smell, touch, taste, smell) with the garden and the community.
