

# Selling the Free Market: The Rhetoric of Economic Correctness

While accusations of political correctness are frequently raised against liberals, there has been surprisingly little discussion of how conservatives foment the use of their own economically correct language. In this engaging book, James Arnt Aune examines how the rhetoric of the free market has become the everyday language of American political debate. Outlining the key ideas of free-market economics, Aune shows how they have permeated political decisions around such issues as labor unions, farm subsidies, and the minimum wage. He also illuminates the paradoxes and irrationalities of these ideas, using rhetorical theory as an analytical tool. The book reveals the inherent contradictions between economic libertarianism, nationalist principles, and social conservatism in the positions of such influential right-wing politicians as Ronald Reagan, Newt Gingrich, and Patrick Buchanan. It also provides lively and critical readings of important free-market and libertarian writings by Ayn Rand, Robert Nozick, Murray Rothbard, and Charles Murray. Vividly demonstrating the destructive impact of economic correctness on the lives of working people and families, this book ably refutes both the language and the logic of the market revolution.

Located on a 160 x 25 site near the south entrance of Newburyport's Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to

compel passers-by to pause, reflect, and have a multi-sensory interactive experience ( sight, smell, touch, taste, smell) with the garden and the community.
