

# Walt Disney and the Quest for Community

During the final months of his life, Walt Disney was consumed with the world-wide problems of cities. His development concept at the time of his death on December 15th, 1966 would be his team's conceptual response to the ills of the inner cities and the sprawl of the megalopolis: the "Experimental Prototype Community of Tomorrow" or, as it became known, EPCOT. This beautifully written, instantly engrossing volume focuses on the original concept of EPCOT, which was conceived by Disney as an experimental community of about 20,000 people on the Disney World property in central Florida. With its radial plan, 50-acre town center enclosed by a dome, themed international shopping area, greenbelt, high-density apartments, satellite communities, monorail and underground roads, the original EPCOT plan is reminiscent of post-war Stockholm and the British New Towns, as well as today's transit-oriented development theory. Unfortunately, Disney himself did not live long enough to witness the realization of his "model city." However, EPCOT's evolution into projects such as the EPCOT Center and the town of Celebration displays a remarkable commitment by the Disney organization to the original EPCOT philosophy, one which continues to have relevance in the fields of planning and development.

Green Artists League GALvanizing Eco-Responsibility Subscribe via RSS HOME ABOUT ALCHEMICAL GARDEN ECOVENTIONS Help Cultivate The Alchemical Garden: An Edible Garden and Art Park at Newburyport's Rail Trail Posted by erin on April 25, 2011 3 comments The Alchemical Garden site February 2010 GAL is turning a desolate field of weeds into a visually compelling garden that will educate and engage the community for years to come. Located on a 160 x 25 site near the south entrance of Newburyport's Clipper City Rail Trail, the Alchemical Garden is a richly layered evolving art and horticulture experience that is accessible on many different levels to the public. Alchemical Garden Plot plan Alchemical Garden is designed to become a model for a sustainable, interactive public garden through the use of symbiotic, low maintenance plantings and recycled materials. The ancient discipline of Alchemy marries art and science and is famously known for transforming a common material into gold. The Alchemical Garden will lead the community to transform on a number of levels : Alchemical Garden with Spring Wheat "Crop Circles" June, 2011 BUILD COMMUNITY: The Garden creates a gathering space for individuals to form a more intimate relationship with their community. The space is designed with visual features and seating areas to compel passers-by to pause, reflect, and have a multi-sensory interactive experience ( sight, smell, touch, taste, smell)

with the garden and the community. Read the rest of this entry Categories: Alchemical Garden, Articulture, Current Events, Projects.
